# Tuscan Heritage

*Enter the world of Signoria*

*Join the Tuscan way of life*

*Tuscany is the elegance of its hills.  
Tuscany is the flowering gardens  
of its villas, their décor and their fine arts.  
Tuscany is the life and soul of Signoria,  
its origin in the 1930's and a constant  
source of inspiration for its creations.*

Signoria Firenze has brought the Tuscan heritage around the world since 1930, at first with hand-crafted embroidery and then specializing in manufacturing of high quality bed linen.

All our collections are designed, cut, sewn and packaged in Tuscany.  
They are created to collect and convey the elegance of Tuscan hills, flower gardens and artworks.

Signoria Firenze is distributed all over the world but its Tuscan heart allows it to create unique collections. This is possible by melding the skills of true craftsmen with the exclusive use of fine Egyptian combed cotton fibers.

The mission is to keep craftsmanship alive by blending it with today's trends. For this reason, every year Signoria Firenze creates new collections by combining the study of fashion trends with almost 100 years of technical experience.

The Orti Oricellari, magnificent fifteenth-century Florentine gardens, were the place where natural dyes derived from lichens were produced and used to dye the most luxurious fabrics.
